International filing date (day/month/year)

01.12.2003

Priority date (day/month/year)

IMPORTANT NOTIFICATION

30.11.2002

Applicant

MARKES INTERNATIONAL LIMITED et al.

- The applicant is hereby notified that this International Preliminary Examining Authority transmits herewith the international preliminary examination report and its annexes, if any, established on the international application.
- A copy of the report and its annexes, if any, is being transmitted to the International Bureau for communication to all the elected Offices.
- 3. Where required by any of the elected Offices, the International Bureau will prepare an English translation of the report (but not of any annexes) and will transmit such translation to those Offices.

#### 4. REMINDER

The applicant must enter the national phase before each elected Office by performing certain acts (filing translations and paying national fees) within 30 months from the priority date (or later in some Offices) (Article 39(1)) (see also the reminder sent by the International Bureau with Form PCT/IB/301).

Where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary examination report. It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned.

For further details on the applicable time limits and requirements of the elected Offices, see Volume II of the PCT Applicant's Guide.

The applicant's attention is drawn to Article 33(5), which provides that the criteria of novelty, inventive step and industrial applicability described in Article 33(2) to (4) merely serve the purposes of international preliminary examination and that "any Contracting State may apply additional or different criteria for the purposes of deciding whether, in that State, the claimed inventions is patentable or not" (see also Article 27(5)). Such additional criteria may relate, for example, to exemptions from patentability, requirements for enabling disclosure, clarity and support for the claims.

### **EXAMINATION REPORT - SEPARATE SHEET**

#### Re Item V

Reasoned statement with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

- 1. Reference is made to the following documents:
  - D1: US-B-6 409 9681 (TAKAHASHI KATSUAKI) 25 June 2002 (2002-06-25)
  - D2: US 2002/157483 A1 (LIN MIN-NAN ET AL) 31 October 2002 (2002-10-31)
  - D3: EP-A-0 459 677 (THERMEDICS INC) 4 December 1991 (1991-12-04)
  - D4: US-A-5 014 541 (CATES MARION ET AL) 14 May 1991 (1991-05-14)
  - D5: PATENT ABSTRACTS OF JAPAN vol. 018, no. 574 (P-1821), 2 November 1994 (1994-11-02) & JP 06 213784 A (MITSUI KINZOKU SHIGEN KAIHATSU KK), 5 August 1994 (1994-08-05)
  - D6: US-A-5 402 668 (MURAKAMI AKI A ET AL) 4 April 1995 (1995-04-04)
  - D7: EP-A-1 004 871 (MARKES INTERNATIONAL LIMITED) 31 May 2000 (2000-05-31)
- 2. The present application does not meet the criteria of Article 33(1) PCT, because the subject-matter of independent claims 1, 11 and 16 is not new in the sense of Article 33(2) PCT.
- 2.1 The document D1 discloses (see abstract; figures 1-11; column 1, line 6 - column 2, line 21; column 2, line 23 - column 3, line 62):
  - an analytical apparatus for automatically carrying out a plurality of analytical steps, which apparatus includes:
  - a releasing device (first pipetting device) for releasing a sample from a sampling tube (reaction container);
  - a device for analysing a first portion of the released sample;
  - a collecting device (backup reaction container) for collecting a second portion of the released sample:
  - a device for re-releasing (second pipetting device) the collected said second portion of the sample; and
  - a device for analysing the re-released portion of the sample.

The subject-matter of independent claim 1 is therefore not new.

2.2 The same reasoning applies, mutatis mutandis, to the subject-matter of the

International application No. PCT/GB 03/05242

**EXAMINATION REPORT - SEPARATE SHEET** 

corresponding independent claims 11 and 16 which therefore are also considered not new.

- The same objections are raised against novelty of independent claims 1, 11 and 16 2.3 having regard to the disclosure of documents D2 to D7, see the corresponding passages cited in the search report.
- Dependent claims 2-10, 12-15, 17-21 do not contain any features which, in 3. combination with the features of any claim to which they refer, meet the requirements of the PCT in respect of novelty and/or inventive step, see documents D1 to D7 and the corresponding passages cited in the search report.
